

ALKALINE CLEANER

EMULSION POLISH STRIPPER

DESCRIPTION: **GRANWAX ALKALINE CLEANER** is a concentrated cleaner designed to assist in removing heavy build-up of dirt and emulsion polish from floor surfaces. Ideal for use on vinyl, linoleum and thermoplastic surfaces.

INSTRUCTIONS: To remove emulsion polish or clean a very dirty surface, use a solution of 1 part Alkaline Cleaner to 20 parts hot water. For general floor cleaning and to remove light surface dirt, food spills, etc. dilute 1 part Alkaline Cleaner to 20 parts warm water.

Apply diluted cleaner to floor surface and leave until polish and dirt has lifted (approx. 5 – 15 minutes). Remove dirt residues with a clean mop or cloth. To remove a build up of emulsion polish or to clean heavily soiled areas, apply solution and then scrub with floor maintenance pads.

Rinse floor with clean water, neutralise if necessary and allow to dry thoroughly before applying polish.

PRECAUTIONS: Store away from frost and keep out of the reach of children.

HEALTH & SAFETY: For full health and safety information, please see our product Material Safety Data Sheet available upon request.
