MATERIAL SAFETY DATA SHEET

Product name: TRAFFIC LANE CLEANER

Reviewed date: September 2009

Reviewed by MC

1. Identification of substance

Substance: **TRAFFIC LANE CLEANER**
Supplier: Granwax Products Limited
West Street
Riddings, Alfreton
Derbyshire DE55 4EW
Telephone: 01773 541177 Fax: 01773 541429
This revision: September 2009

2. Composition/Data on components

Composition and classification of potentially hazardous components.

Component	Concentration range	Classification
Glycol ether PM CAS No. 107-98-2	Less than 6%	None

Occupational exposure limits:
Glycol ether PM Occupational Exposure Standard 375 mg/m³ 8 hour TWA Sk
Sk - Can be absorbed through skin
From HSE Doc. EH 40/2007 and manufacturers information.

3. Hazards identification

This preparation is not classified as hazardous. The following safety phrases apply.
S2- Keep out of reach of children
S24/25- Avoid contact with the skin and eyes

4. First aid measures

General:

In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person.

Inhalation:

Remove to fresh air, keep the patient warm and at rest. If breathing has stopped, administer artificial respiration. Give nothing by mouth. If unconscious, place in the recovery position and seek medical advice.

Eye contact:

Contact lenses should be removed. Irrigate copiously with clean, fresh water for at least 10 minutes, holding eyelids apart, and seek medical advice.

Skin contact:

Remove contaminated clothing. Wash skin thoroughly with soap and water or use a proprietary skin cleaner. DO NOT use solvents or thinners.

Ingestion:

If accidentally swallowed obtain immediate medical attention. Keep at rest. DO NOT induce vomiting

5. Fire fighting measures

No special measures are required for fighting a fire involving, or in the vicinity of this preparation.

6. Accidental release measures

Spillages should be contained with a non-combustible adsorbent material and collected for disposal in accordance with the local regulations.

Spillages should not be allowed to run to surface waters.

7. Handling & storage

No special storage requirements are required for this preparation. All chemical preparations should be stored securely where they cannot be interfered with or used by unauthorised persons.

8. Exposure controls & personal protection

As with any solvent based product, prolonged exposure of the skin may cause irritation and dermatitis.

Rubber or latex gloves

should be used to protect the hands during use and suitable work-wear or overalls should be used to protect clothing and skin.

As with all solvent based products, approved eye protection should be used when handling this material.

Use only in well ventilated areas, if the OES is likely to be exceeded an approved respirator should be used.

9. Physical and chemical properties

Appearance: Clear liquid 9.2. Odour: slightly alcoholic

pH: Not applicable 9.4. Boiling point / range No data

Melting point / range Not applicable 9.6. Flash point Greater than 80 deg. C

Flammability Flammable 9.8. Autoflammability Not applicable

Explosive properties None 9.10. Oxidising properties None

Vapour pressure Not known 9.12. Relative density Approx. SG 1.05

Solubility Fully soluble 9.14. Partition coefficient: n-octanol / water not determined

10. Stability and reactivity

This preparation is stable and generally unreactive.

11. Toxicological information

The product is of low general toxicity.

This preparation may cause irritation to the eyes and mucous membranes. As with all solvent containing preparations it may be

irritant to the skin. Any person with a history of skin sensitisation should take extra care when handling this preparation. Reducing

the periods of skin exposure to any substance or preparation will reduce the risk of sensitization or other irritation occurring.

If exposure levels can not be directly measured a Biological Monitoring Guidance Value (BMGV) has been set for 2-

Butoxyethanol of 240 mmol butoxyacetic acid/mol creatine in urine, the sample to be taken post shift.

12: Ecological Information

There is no data available on the product itself but the solvents present may be marine pollutants.

13. Disposal considerations

Do not allow into drains or water courses or dispose of where ground or surface waters may be affected. Wastes including empty containers are controlled wastes and should be disposed of in accordance with the regulations made under the Control of Pollution Act and the Environmental Protection Act.

Using the information provided in this data sheet, advice should be obtained from the Environment Agency whether the special waste regulations apply.

14. Transport information

There are no special requirements for the transport of this preparation.

15. Regulatory information

The following safety phrases apply.

Contains Glycol ether PM EC No. 203-539-1

S2- Keep out of reach of children

S24/25- Avoid contact with the skin and eyes

This substance is classified as a substance hazardous to health within the definition given in Regulation 2 of the COSHH

Regulations. An assessment of the risks to health caused by the use of this substance and the other requirements of the COSHH

regulations must therefore be made by any employer or self employed person using this preparation at work.

16. Other information

No other safety information is applicable to the use of this preparation for its intended purpose.
