

SPEEDKLEEN

BUFFABLE FLOOR CLEANER/MAINTAINER

DESCRIPTION:

SPEEDKLEEN is a buffable floor cleaner and maintainer formulated to offer easy cleaning and protection to hard floors. Contains a blend of detergents and slip retardant polymers. Non-dusting and pleasantly perfumed.

SPEEDKLEEN gives excellent results on hard surfaces and is suitable for sealed timber, cork, PVC (vinyl), thermoplastic, linoleum, sealed asphalt, magnesite and composition.

INSTRUCTIONS:

SPEEDKLEEN can be used as the sole maintenance treatment, however, for best results, the floor should be initially treated with a good quality emulsion polish, e.g. **Tufsheen** or **Acrylic Emulsion**. Floors should be first swept clean with a mop sweeper to remove dust and dirt deposits.

Ideally, floors should be spray cleaned using 1 part **SPEEDKLEEN** to 40 parts water. Spray floor lightly with solution in workable sections and then burnish using a suitable rotary machine and appropriate grade of floor maintenance pad. This will enhance the floor surface and remove scuff marks.

PRECAUTIONS:

Store at moderate temperature and protect from frost. Keep out of the reach of children.

HEALTH & SAFETY:

Please refer to our Material Safety Data Sheet for full information.

Please note: No liability is accepted for any loss or damage arising directly from the use of the Company's products or from the use of the information given in its publications. Prospective users should therefore satisfy themselves by appropriate trials that the product to be used is suitable for the intended use.
