

SPORTSCLEAN

Fast Acting Cleaner for Sports Hall Floors

DESCRIPTION: **SPORTSCLEAN** is a specially formulated cleaning product designed to remove all types of sports hall soiling quickly and effectively, without the need for rinsing or neutralising. Sportsclean is ideal for use on wood, Granwood and Gransprung floors, as well as many other types of sports and general purpose flooring.

APPLICATION: **For use as a daily cleaner/maintainer:**
Sportsclean should be diluted 1:4 with warm water when used for routine cleaning purposes. It may be applied through a scrubber/drier using red or blue floor maintenance pads, according to the degree of soiling. Alternatively, Sportsclean can be applied by flat mop, mop sweeper or heavy towelling (which should be folded around sweeper or 2/3ft push broom). Soak in the solution and wring out well with suitable wringer. When mop sweeper sleeve or towel becomes soiled, they should be rinsed with clean water. The above procedure can be repeated for optimum cleaning.

Regular use of Sportsclean will result in a clean surface with good tractional properties, essential for sporting purposes.

COVERAGE: When used neat, Sportsclean should result in coverage of approximately 100 – 150sm per 5 litres, depending upon surface porosity. Dilution of product will obviously increase coverage.

PACK SIZE: 5 litre containers. Case: 4 x 5 litres

STORAGE: Store in a cool dry place. Protect from frost.

HEALTH & SAFETY: For health & safety information, please refer to our Material Health & Safety Data Sheet.

No liability is accepted for any loss or damage arising directly from the use of the Company's products or from the use of the information given in its publications. Prospective users should therefore satisfy themselves by appropriate trials that the product to be used is suitable for the intended use.
